Education

Government Polytechnic Thane	Thane
Diploma In Computer Engineering	*Jan 2020 – Jul 2023*
Datta Meghe College Of Engineering	Airoli
Bachelor of Engineering in Information Technology	*Aug 2023 – Jul 2026*

Experience

Full Stack Developer

Virelity , Hybrid

Vidyavihar
Jun 2025-Aug 2025

- Developed and maintained real-world, production-grade web and mobile applications for diverse client projects, ensuring robust performance, scalability, and user experience.
- Engineered dynamic, responsive UI components and integrated RESTful APIs to enable smooth interaction and efficient data flow between frontend and backend systems.
- Collaborated with design and QA teams to optimize application performance, accessibility, and maintainability before deployment.

Projects

PropTech | *MERN Stack, Flask, Machine Learning*
An AI-powered real estate web application that allows users to list, buy, and rent properties with smart recommendations.

- Integrated **machine learning–based price prediction** and **AI-driven property recommendations** using Flask microservices.
- Engineered a **scalable REST API architecture** connecting React, Node.js, and MongoDB for seamless data flow and real-time analytics.
- Built a **real-time chat module** using Socket.io, enabling direct buyer–seller communication within listings..

AlumniBridge | *React, Node js , Express , Mongo db*
A full-stack alumni networking and mentorship platform built for college communities.

- Developed **secure authentication**, user profiles, and event management using JWT, Express, and MongoDB.
- Integrated **real-time messaging and AI-based mentor matching** using Flask APIs and Socket.io.
- Optimized frontend performance with React and responsive UI, improving load time and engagement metrics.

Anonymous Messaging App *| Next.js, Node.js, MongoDB, NextAuth*
A privacy-focused web platform that enables users to send and receive anonymous messages through unique shareable URLs.

- Implemented server-side rendering (SSR) and API routes in Next.js for high performance and SEO optimization.
- Designed secure **message encryption and session handling** using JWT and middleware authentication.
- Built a minimalist, responsive interface with dynamic routing and interactive animations for smooth user experience.

Technical Skills

Tech Stack: JavaScript, TypeScript, Python, Java, SQL , React, Next.js, Node.js, Express, Flask, React Native, Git, MongoDB
